year in review

To mitigate the spread of COVID-19, a majority of our programming was outside. Many programs were held at the Bandshell in Flanders Park. Riverpigs story time was our most popular program with over 80 people in attendance. At the community garden we grew many vegetables and taught our young readers how to care for plants while listening to stories.

Inside the library we worked hard on an archiving project with Connor Snow and are proud to say that this project is almost complete! We hope to complete the project by the end of 2022.

new director

On Jan. 24, 2022 Courtney Carey joined our team as library director.
